

The Broadmoor Open will be using electronic music. Because of the size of the event, we are asking all skaters to submit their music in advance by email. Please also be prepared with a CD when you register as a backup & have a CD copy for unofficial practice ice.

Here are the instructions for emailing your music.

Email sent to -- BroadmoorOpenMusic@gmail.com

Subject line: *lastname*firstname*eventname*

-Only one mp3 file per email.

-If competing in a freeski and a short program, then send 2 emails.

-For combined events (including those with qualifying rounds), submit your short program music as well as your freeski music via 2 emails.

-If you are competing in a "short program only" event in addition to a "combined event", please send 3 emails, 2 with your short program with the appropriate subject line in addition to 1 with your freeski.

-If multiple files are sent in one email, an error may occur

-If multiple submissions are received for an individual skater for a specific event, the most recent will be used.

-If there is something specific to be noted for the submitted piece, please explain in the body of the email.

-An autoreply will be sent to confirm receipt of the email, not necessarily implying correctness of the file format.

-Once music is populated into the individual event folders, file format, file size, and file duration will be compared to other submitted pieces for consistency. If something does not appear correct, you will be notified.

-The submitted piece will be used for your scheduled Official Practice.

Refer to the following link for assistance. If you are still experiencing difficulty, send an email to BroadmoorOpenMusic@gmail.com

How to rip a CD as MP3s
